The atmost secrecy, however, is observed they had thereby secured themselves from

The rebels had, however, taken the precaution to erect a battery, at the head of the warer-course, and information had been received to the effect that this battery as well as the defences of the other approaches to Savannah, has been strengthened. But it is believed that their position could not be so fortified as to prevent, the advance of the expedition. In fact, a report has already been received of the evacuation of Fort

The force at Hilton Head thus at command was ten to (welve thousand men.

But it was doubted if any attempt what ever would be made to advance on the mainland, out of the range of the five of the gunboats, insemuch as the force under General Sherman would be unequal to the work of maintaining itself. The object of the contemplated expedition would be accomplished with the occupation of Savannah. The city, however, defended by nearly twenty-five thousand rebels, would not, it was confidently asserted, be attacked, unless our gunboats succeeded in reaching it which there was little doubt they would be If a movement against Savannah shall

CITIZENS OF NEWPORT.

In the present condition of our National affairs the importance of baving as many men as possible instructed in the duties of a soldior cannot be over-estimated, and, in our State especially, where the exposed position of the Coast in case of War with a roreign Power, renders it imperatively recessary that we be prepared for defense. Six Companies, constraints, owner three hundred men, have been formed by this Association, all of which are rapidly advancing in della and description, but the expenses, of course, amount to a considerable sum, and the fundse collected at the emister being about exhausted, we cannot, without the financial assistance of our fellow citizens, continue in what we consider to be a good work. We therefore appeal to the patrionism of the citizens of Newyort to render us substantial sid, sufficient to enable us to carry out the objects of the organization, assuring them that we shall, to the bist of our ability, make all expenditures in a judicious and economical manner.
